Loch Lomond

Loch Lomond is a freshwater loch which crosses the Highland Boundary Fault, often considered the boundary between the lowlands of Central Scotland and the Highlands. Its southern shores are about 23 km (14 mi) northwest of the centre of Glasgow, Scotland's largest city. The Loch forms part of the Loch Lomond and The Trossachs National Park which was established in 2002.

Loch Lomond

Loch Lomond is a freshwater loch which crosses the Highland Boundary Fault, often considered the boundary between the lowlands of Central Scotland and the Highlands. Its southern shores are about 23 km (14 mi) northwest of the centre of Glasgow, Scotland's largest city. The Loch forms part of the Loch Lomond and The Trossachs National Park which was established in 2002.

Loch Lomond is 36.4 km (22.6 mi) long and between 1 and 8 km (0.62–4.97 mi) wide, with a surface area of 71 km² (27.5 sq mi). It is the largest lake in Great Britain by surface area. The loch has a maximum depth of about 153 metres (502 ft).[3] The total volume of Loch Lomond is 2.6 km³ (0.62 cu mi).
